The screenshot displays the WordPress admin interface for the 'Download Categories' section. The left sidebar shows the 'Categories' menu item highlighted. The main content area features a warning message about SSL, a 'Download Categories' title, and an 'Add New Download Category' form. The form includes fields for 'Name', 'Slug', 'Parent Download Category', and 'Description'. The 'Name' field is empty, the 'Slug' field contains 'dm_download_category', the 'Parent Download Category' is set to 'None', and the 'Description' field is empty. A table below the form shows 'No categories found.' with columns for Name, Description, Slug, and Count.
