

SmartGit

Installation

- Download the installer at [SmartGit](#)
- choose “Non-commercial license” during installation

- then wait for the checkbox is available and checked it to continue

- enter your name and company email address

- choose “Use system SSH client”

- choose recommended “file manager”

- uncheck both and continue

SmartGit change license

Go to

- Windows: %APPDATA%\syntevo\SmartGit\<main-smartgit-version>
- OS X: ~/Library/Preferences/SmartGit/<main-smartgit-version>
- Unix/Linux: ~/.smartgit/<main-smartgit-version>

Delete the file “settings.xml”
