Making notes on a patient document

1. On the 'Patient Queue' page, you should see the 'arrived' queue. Click to select a patient.
2. You will find a list of patient documents. Scroll and find the document you want and click to select it.
3. Using your finger or the pen, select a tool and configurations on the toolbar on the left.
4. Draw with the pen on the canvas on the right.
5. You can also use your fingers to move around the canvas.
6. After you are satisfied, click on 'SAVE' and wait.
7. Once the save is successful you can click 'OK'

Creating a new note

1. On the patient document page, select New Page by clicking on it.
2. Select a template for the page, defaults are Blank, Lined and Grid, but you can also import an image from the Gallery.
3. Using your finger or the pen, select a tool and configurations on the toolbar on the left.
4. Draw with the pen on the canvas on the right.
5. You can also use your fingers to move around the canvas.
6. After you are satisfied, click on 'SAVE' and wait.
7. Once the save is successful you can click 'OK'

Viewing patient that have not arrived yet

1. On the 'Patient Queue' page, toggle the 'Arrived only' button on the top right.
2. Click on the 'Refresh' button.
