

# Medinote

## Overview

The below instructions cover the basic usage of the MediNote application.

## Login

1. Launch the MediNote app from the home screen.

2. Enter the Username and Password for your account in MediKare.

The image shows a login screen for 'MediNote'. At the top, the text 'MediNote' is displayed in a stylized font. Below it are two input fields: 'Username' and 'Password'. Under the password field is a button labeled 'Login with MediKAre'. At the bottom of the form is a blue button labeled 'Settings'.

## Making notes on a patient document

1. On the 'Patient Queue' page, you should see the 'arrived' queue. Click to select a patient.
2. You will find a list of patient documents. Scroll and find the document you want and click to select it.
3. Using your finger or the pen, select a tool and configurations on the toolbar on the left.
4. Draw with the pen on the canvas on the right.
5. You can also use your fingers to move around the canvas.
6. After you are satisfied, click on 'SAVE' and wait.
7. Once the save is successful you can click 'OK'

## Creating a new note

1. On the patient document page, select New Page by clicking on it.
2. Select a paper background to start writing. You may choose Blank, Lined or Grid, but you can also import an image from the Gallery.
3. Using your finger or the pen, select a tool and configurations on the toolbar on the left.
4. Draw with the pen on the canvas on the right.
5. You can also use your fingers to move around the canvas.
6. After you are satisfied, click on 'SAVE' and wait.
7. Once the save is successful you can click 'OK'

## Viewing patient that have not arrived yet

1. On the 'Patient Queue' page, toggle the 'Arrived only' button on the top right.
2. Click on the 'Refresh' button.
