

Medinote

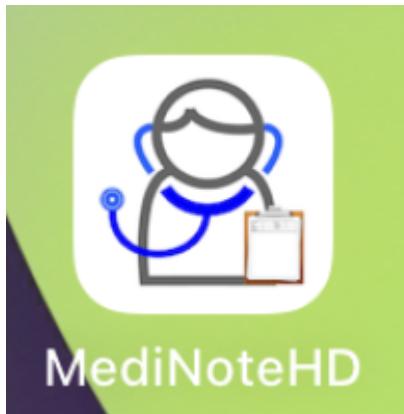

Overview

The below instructions cover the basic usage of the MediNote application.

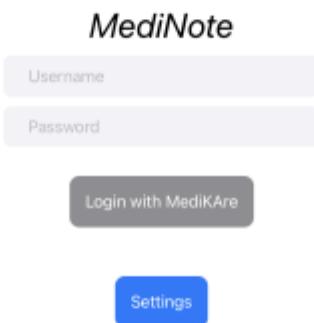

More tutorial: [Advanced usage](#)

Login

1. Launch the MediNote app from the home screen.

2. Enter the Username and Password for your account in MediKare.

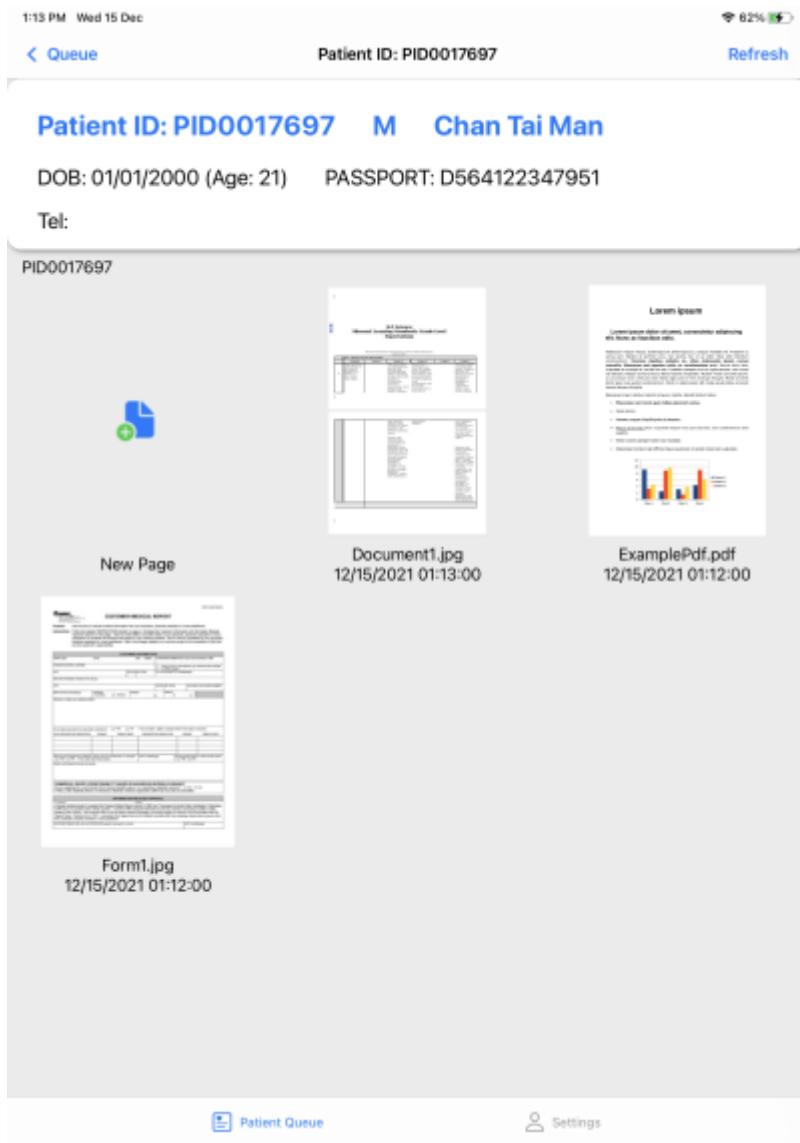

Making notes on a patient document

1. On the 'Patient Queue' page, you should see the 'arrived' queue. Click to select a patient.

The screenshot shows a mobile application interface for managing patient queues. At the top, there is a header with the date '12:47 PM Wed 16 Dec', a signal strength icon, and a battery level of '53%'. Below the header, the title 'patientQueue' is displayed, followed by a switch labeled 'Arrived only' which is turned on, and a 'Refresh' button. A search bar with the placeholder 'Search' and a magnifying glass icon is present. The main content area displays two patient entries, each with a booking time, patient ID, name, gender, and date of birth. The first entry is for 'Patient ID: PID0017697 M Chan Tai Man' with a booking of 12/15/2021 12:00:00 / 12:40:36. The second entry is for 'Patient ID: PID0017698 M Wong Siu Ming' with a booking of 12/15/2021 13:00:00 / 12:41:47. Below each entry, there is a line of text showing the DOB and either a passport or HKID number. At the bottom of the screen, there are two navigation buttons: 'Patient Queue' and 'Settings', with 'Patient Queue' being the active tab.

2. You will find a list of patient documents. Scroll and find the document you want and click to select it.

3. Using your finger or the pen, select a tool and configurations on the toolbar on the left.
4. Draw with the pen on the canvas on the right.
5. You can also use your fingers to move around the canvas.
6. After you are satisfied, click on 'SAVE' and wait.
7. Once the save is successful you can click 'OK'

Creating a new note

1. On the patient document page, select New Page by clicking on it.
2. Select a paper background to start writing. You may choose Blank, Lined or Grid, but you can also import an image from the Gallery.
3. Using your finger or the pen, select a tool and configurations on the toolbar on the left.

4. Draw with the pen on the canvas on the right.
5. You can also use your fingers to move around the canvas.
6. After you are satisfied, click on 'SAVE' and wait.
7. Once the save is successful you can click 'OK'

Viewing patient that have not arrived yet

1. On the 'Patient Queue' page, toggle the 'Arrived only' button on the top right.
2. Click on the 'Refresh' button.

Searching for a patient

1. On the 'Patient Queue' page, click on the search bar on the top of the screen.
2. Enter the patient details to search, you can search from patient ID (please enter the full patient ID), phone number or name of the patient. Click on the magnifying glass on the right of the search bar to start search.
3. Scroll and find the patient, and click to select the patient.

Logout

1. Select the 'Settings' page on the bottom right.
2. Click 'Logout'.
3. Confirm by clicking 'Yes'
