# **OneDrive**

## Installation

- Login your Office 365 account at http://portal.office.com
- Click OneDrive
  - if it is the first time you use it, please wait for the setup until you see "Your OneDrive is ready".
- Click the link at bottom-left to download the "OneDrive App" on your computer

### **Navigation menu**

The navigation menu is on top. It will be changed to provide appropriate function based on what you are doing.

# Add new file

- Click "New" and choose format from dropdown, e.g. Word
- For example: create a word document and type the content
- It is automatically saved in OneDrive by closing the document
- You can edit the document in both Word or Word Online

# **Share**

- Click on a Floder or Document and click 'Share" on top navigation menu.
- A popup window will ask you to enter the e-mail address or name that you want to share this
  document
- As a owner, you control the permission level such as "can view" or "can edit".

Pls note that giving out "can edit" permission means other users could delete your file.

#### **Edit without Delete**

If you want to allow other users to edit the file but not be able to delete it, you will have to create a new permission level.

- Go to "Site Perference"
- click "Permission Level"
- clone the existing "Edit" permission level
- remove "Delete Item" from the new permission level
- save the new permission level

# Sharing with specific permission level

When you share a folder or a file, there are only two permission level in the simple interface. You need to change the interface to allow you to select the specific permission level.

- click the "classic OneDrive" link on the bottom left
  - the layout & look will be changed
- select a folder or file, click [Share] button
- click the "xxx" and then click [Advanced]
- enter the e-mail address or name that you want to share this document
- choose the specific permission level from the dropdown, e.g. Edit without Delete
- click [Share] button
