

Multisite language Switcher

Reference:<https://wordpress.org/plugins/multisite-language-switcher/>

Installation

Install via Network Admin.

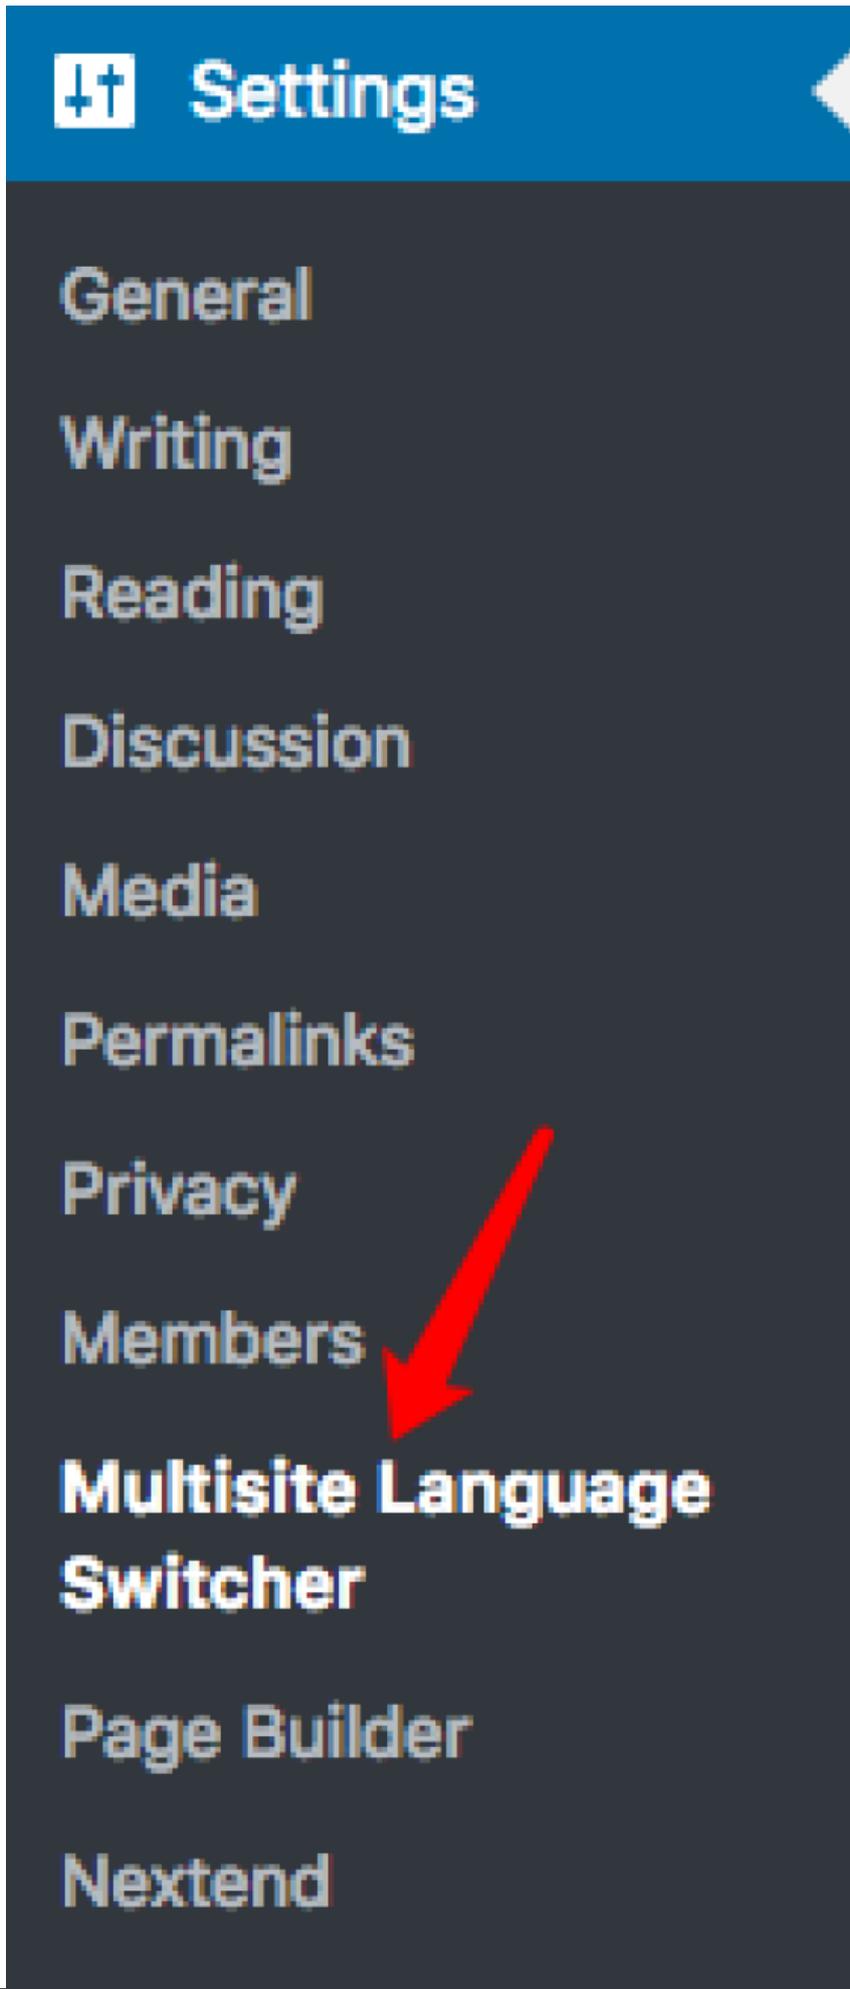

如果是多站点网站，安装完Multisite language Switcher后，需要到每个子网站中设置

Setup

- 1. 点击dashboard>settings>Multisite Language Switcher对blog language和admin language进行设置[e.g.在zhfinh.com中，blog language和admin language都选择“Chinese”[注意blog language和admin language选项中有两个“Chinese”[第一个“Chinese”是简体中文，第二个则是繁体中文)]

en.zhfinh.com 和 cn.zhfinh.com设置方式和zhfinh.com设置一样

The image shows a vertical settings menu with a blue header containing a white icon of a plus sign inside a square and the word "Settings". Below the header, the menu items are listed in white text on a dark grey background. A red arrow points to the "Multisite Language Switcher" item, which is highlighted in white. The other items are in a lighter grey color.
