SmartGit

Installation

- Download the installer at [SmartGit](#)
- Below installation guide is based on Mac, Windows installation procedure may be a bit different.
- choose "Non-commercial license" during installation

- then wait for the checkbox is available and checked it to continue

- enter your name and company email address

- choose "Use system SSH client"

- choose recommended "file manager"

- uncheck both and continue

SmartGit change license

问题描述

20.0以上版本SmartGit每次打开都会一直弹窗提示确认是非营利目的，还不能马上关闭，要等个十几秒才能关闭，而且一天还会提示很多次，感觉是挺烦的，所以就推荐以下两种解决方法

\

解决方法一

- version less than 19.1

Go to

- Windows: %APPDATA%\syntevo\SmartGit\<main-smartgit-version>
- OS X: ~/Library/Preferences/SmartGit/<main-smartgit-version>
- Unix/Linux: ~/.smartgit/<main-smartgit-version>

Delete the file "settings.xml"

- version great than 19.1

Go to

- Windows: %APPDATA%\syntevo\SmartGit\<main-smartgit-version>

Delete the file "license" and "preferences.yml"

Go to

- Windows: %APPDATA%\syntevo\SmartGit\<main-smartgit-version>\.backup

Delete the file "preferences.yml" 重新启动smartGit并选择试用，然后打开Windows: %APPDATA%\syntevo\SmartGit\<main-smartgit-version>\preferences.yml并修改firstUsedTime 为2001001839971即可无限试用

解决方法二

用邮箱注册个账号解决：https://blog.csdn.net/haha223545/article/details/86699820
