

## Adding a Carriage Return/Line Feed Suffix to Motorola DS 9208

A frequent request for Motorola scanners is to enable the CR/LF (Enter) suffix. The good news is that is that's the default suffix. Just print and scan these three barcodes to enable. Now your DS 9208 will transmit the scanned data and add a CR.

**Scan Options**

**<DATA> <SUFFIX>**

**Enter**

The full LS2208 PRG can be found here: [Link to DS 9208 Product Reference Guide](#)
